SUMMARY

Results-driven Front-End Developer with 7 years of experience creating and implementing innovative web designs and user experiences. Proficient in React, Redux Toolkit, React Context API, Rest API, TypeScript, JavaScript, jQuery, WordPress, PHP, HTML, CSS, SASS, LESS, etc. Seeking an opportunity to contribute my skills and expertise to a dynamic development team.

PROFESSIONAL EXPERIENCE

Front-End Web Developer

Ondicom | May 2017 – April 2024

- Developed over 200+ major web projects over the last 7 years, across various domains such as property industry, healthcare sector, information technology and government.
- Worked closely with management, UX design team and back-end programmers to build the front end of CMS, CRM & associated app development.
- Implemented new features and functionality to enhance user experience and improve site performance.
- Maintained active conversation with clients to ensure the site met its needs.
- Other duties involved the creation and assembly of responsive email (EDM) campaigns, advertising banner, conversion, migration and custom theme build of WordPress websites.

Technology Used: React.js, Redux Toolkit, Context Api, RESTful Api, TypeScript, React Testing Library, Vitest, Jest, JavaScript, Node.js, jQuery, HTML5, CSS, SASS, Tailwind CSS, Material UI, Bootstrap, WordPress, PHP, git, GitHub, Sketch, Figma and Adobe photoshop.

Web Developer Intern

Thinkun | Jan 2017 – May 2017

- Worked closely with clients to understand project requirements and deliver high-quality web solutions.
- Developed custom WordPress themes and plugins to meet client specifications.
- Maintained proper documentation of processes and updates of projects using confluence.
- Developed various custom UI features using JavaScript like shadowboxes, slider carousels, tickers, event calendar filters, language switcher etc. for code reusability.

Technology Used: JavaScript, jQuery, HTML5, CSS, SASS, WordPress, PHP and Bootstrap.
