Summary

Result-driven Front-End Developer with more than six years of experience in creating and implementing innovative web products and user experiences. Adept at collaborating with cross-functional teams to drive project success. Seeking an opportunity to contribute my skills and expertise to a dynamic development team.

Work Experience

Front-End Developer at Ondicom

June 2017 - Present

- Developed numerous web products such as web apps, CRM, CMS, ROI sites, email templates, banners, landing pages, etc, that meets the business and end-user goals.
- Understood design layout from the UX team and converted into web projects from PSD, Sketch or Figma.
- Implemented new features and functionality to enhance user experience and improve site performance.
- Continuous maintenance and upgrade of clients' old site.
- Maintained active conversation with clients to ensure the site met its needs.

Technology Used: React.js, Redux, Context Api, RESTful Api, JavaScript, Node.js, jQuery, HTML5, CSS3, Sass, WordPress, PHP, git, GitHub, Sketch, Figma and Adobe photoshop.

Web Developer Intern at Thinkun

01/2017 – 05/2017

- Worked closely with clients to understand project requirements and deliver high-quality web solutions.
- Developed custom WordPress themes and plugins to meet client specifications.
- Maintained proper documentation of processes and updates of projects using confluence.
- Developed various JavaScript functional prototypes like shadowboxes, slider carousels, tickers, event calendar filters, language switcher etc. for code reusability.

Technology Used: JavaScript, jQuery, HTML5, CSS3, Sass, WordPress, PHP and Bootstrap.
